Professional Summary

Second-year Computer Science undergraduate with hands-on experience in full-stack development using React, Node.js, Express, and MongoDB. Skilled in REST API development, authentication, and database design through academic and project-based experience. Actively seeking a web or full-stack development internship.

Technical Skills

Frontend: HTML, CSS, Tailwind CSS, JavaScript, React

Backend: Node.js, Express.js, Django

Database: MongoDB, MySQL

Tools & Concepts: Git, GitHub, Postman, VS Code, REST APIs, JWT Authentication, API Testing

Technical Highlights

Full-Stack Development, REST API Design, Authentication and Authorization, Database Schema Design, Deployment, Debugging, Performance Optimization, Version Control

Work Experience

Full-Stack Developer (Academic & Project-Based)

2024 – Present

- Built and deployed 10+ full-stack web applications using React, Node.js, Express, and MongoDB
- Designed and implemented 40+ REST API endpoints with JWT-based authentication and role-based access
- Optimized MongoDB queries reducing average API response time by approximately 25%
- Collaborated with peers during hackathons and academic projects to deliver scalable web solutions

Projects

E-Commerce Web Application | [Live](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB, Clerk Authentication

- Developed a full-stack e-commerce platform supporting 100+ products, 3 user roles, and 50+ test users
- Implemented product search, filtering, cart management, and checkout workflow handling 200+ test transactions
- Built RESTful APIs for product, user, and order management with secure authentication

Doctor Appointment Booking Web Application | [Live](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed appointment booking system with time-slot-based scheduling for 20+ daily appointments
- Implemented separate dashboards for users and doctors with appointment status tracking
- Developed backend APIs for appointment creation, updates, and cancellation

Instagram Clone Web Application | [Live](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Built social media platform with authentication, posts, likes, comments, and follow system
- Designed MongoDB schemas and REST APIs supporting scalable user and post management

Education

Bachelor of Technology in Computer Science (Core)

2024 – 2028

Adamas University, Barasat, Kolkata

CGPA: 8.5 / 10 | Coursework: Data Structures, Algorithms, DBMS, OS, CN, Software Engineering

Certifications & Achievements

CSS Basics – HackerRank | React Frontend Project – GreatStack | Java Programming – Knowledge Gate | Google Developer Group (GDG) Certification | Project Competition Hackathon – Heritage Institute of Technology | Clash of Coders Hackathon (Group)
