Professional Summary

A Second-year Computer Science undergraduate with hands-on experience in full-stack development using React, Node.js, Express, and MongoDB. Skilled in REST API development, authentication, and database design through academic and project-based experience. Seeking a web or full-stack development internship to apply and strengthen technical skills.

Technical Skills

Frontend: HTML, CSS, Tailwind CSS, JavaScript, React

Backend: Node.js, Express.js, Django

Database: MongoDB, MySQL

Cloud & Deployment: Render, Vercel, MongoDB Atlas

Tools & Concepts: Git, GitHub, Postman, VS Code, REST APIs, JWT Authentication, API Testing, CI/CD fundamentals

Technical Highlights

Full-Stack Development, REST API Design, Authentication and Authorization, Database Schema Design, Deployment, Debugging, Performance Optimization, Version Control

Development Experience

Full-Stack Developer — Academic & Group Projects

2024 – Present

- Built and deployed 10+ full-stack web applications using React, Node.js, Express, Django, and MongoDB
- Designed and implemented secure REST APIs with JWT-based authentication and role-based access
- Worked in collaborative team settings, contributing to feature development, code reviews, and deployment

Projects

E-Commerce Web Application | [Live](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB, Clerk Authentication

- Engineered a full-stack e-commerce platform supporting 100+ products, 2 distinct user roles, and 20+ test users
- Enabled product search, filtering, cart operations, and a secure checkout flow.
- Architected backend services for product, user, and order management with token-based authentication

AI SaaS web app | [Live](#)

React, Tailwind CSS, NodeJs, ExpressJs, NeonDB, MongoDB, Razorpay

- Developed a full-stack AI-powered SaaS platform enabling users to generate articles, blog titles, images, and perform advanced tasks like background removal, object removal, and resume review.
- Implemented a secure authentication system and managed user data with MongoDB and another data NeonDB for scalable and efficient storage.
- Integrated Razorpay payment gateway with a coin-based system to manage user credits and enable monetization of AI services.

Instagram Clone Web Application | [Live](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Created a social media platform featuring authentication, posts, likes, comments, and follower relationships
- Structured MongoDB schemas and API layers to support scalable user interactions and content management

Additional projects available at: <https://portfolio-soumen-dev.netlify.app/all-projects>

Education

Bachelor of Technology in Computer Science (Core)

2024 – 2028

Adamas University, Barasat, Kolkata

CGPA: 8.5 / 10 | Coursework: Data Structures, Algorithms, DBMS, OS, CN, Software Engineering

Certifications & Achievements

CSS Basics – HackerRank | React Frontend Project – GreatStack | Google Developer Group (GDG) Certification
Cognifyez Technologies - winter internship
